RESPONSIVE FRONT-END DEVELOPER

Detail-oriented front-end developer skilled in creating dynamic, responsive, and user-friendly websites. Proficient in HTML, CSS, JavaScript, Bootstrap, and React.js, with a focus on delivering clean, efficient code for seamless user experiences. Continuously learning and staying updated with the latest web technologies.

SKILLS

Responsive Web Design	React.js	Team Work
HTML, CSS, JavaScript	Git & Github	Time Management
Bootstrap & Tailwind	MS-Office	Problem Solving

PROJECTS

Tech Company Landing Page
Innovative Solution
Developed a responsive and visually appealing landing page for a fictional tech company, featuring sections like services, projects, pricing, and contact form. Integrated a sleek navigation bar, interactive project showcase, and clear service breakdowns. Built using HTML, CSS, and Bootstrap.

Web Application
Currency Converter
Developed a responsive currency converter that allows users to convert between various currencies using real-time exchange rates from an API. Features a dynamic UI with country flags for selected currencies, and is built using HTML, CSS, Bootstrap, Font Awesome, and JavaScript. Provides an intuitive and efficient user experience for quick conversions.

Game Web Application
Tic-Tac-Toe Game
Built a classic two-player Tic-Tac-Toe game with a responsive design using HTML, CSS, Bootstrap, and JavaScript. The game features interactive gameplay, automatic winner detection, and a reset option. Players alternate turns marking the grid, with the game checking for winning patterns or a draw after each move.
